What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of ZEST ASSET MANAGEMENT SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Fund may at any time be dissolved by a resolution of the general meeting of shareholders subject to the quorum and majority requirements applicable for amendments to the Articles. And, in the event that for any reason the value of the net assets in the Sub-Fund or Class has decreased to an amount below EUR 10 million or the equivalent in any other Reference Currency, respectively such amount determined by the board of directors to be the minimum level for such Class to be operated in an economically efficient manner, or if a change in the economic or political situation relating to the Sub-Fund or Class concerned would have material adverse consequences on the investments of the Sub-Fund or Class or in order to proceed to an economic rationalization, the board of directors may decide to compulsorily redeem all the Shares issued in the Sub-Fund or Class at the Net Asset Value per Share (taking into account actual realization prices of investments and realization expenses) calculated on the Valuation Day at which such decision shall take effect.

OBJECTIVES

The Sub-Fund mainly invests in any kind of debt instruments (including bonds, convertible bonds) and Money Market Instruments or assimilated products (such as commercial papers, and in general instruments with a maturity lower than twelve months) denominated in any currencies and issued by rated issuers with a Standard & Poor's rating of at least BB (or an equivalent rating issued by another main rating agency). The Sub-Fund is actively managed without reference to any benchmark.

Investments in debt instruments, convertible and Contingent Convertible Bonds will be focused on securities issued by European and North American issuers.

Investments in above-mentioned debt instruments issued by rated issuers with a Standard & Poor's rating below BB (or an equivalent rating issued by Moody's or Fitch) will be limited to 10% of the Sub-Fund's net assets.

For money market instruments, the short-term rating (issued by one or more of the main agencies (Moody's, S&P & Fitch) at issue or issuer level) shall be at least P3/A3.

Among the convertible bonds, the Sub-Fund may invest maximum 40% of its net assets in Contingent Convertible Bonds (which must have a mechanical trigger), rated at least B-/B3 (by Moody's, S&P or Fitch) and issued by banking institutions rated at least investment grade (by Moody's, S&P or Fitch), and located in OECD countries.

For investment and hedging purposes, the Sub-Fund may use financial derivatives, such as exchange traded futures and options on rates, currency and bonds, but to the exclusion of total return swaps.

The remaining assets may be invested in any other eligible assets. Direct investments in equities shall be limited to 10% maximum of net assets and shall be allowed only for equities resulting from conversion of a Contingent Convertible Bonds.

The Sub-Fund may invest a maximum of 10% of its assets in units or shares of other UCITS and/or UCIs in order to be eligible as a coordinated UCITS.

The Sub-Fund may also hold ancillary liquid assets (i.e. bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes. The aforementioned limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the Shareholders.

The Sub-Fund may also hold on ancillary basis money markets instruments dealt in on the money market rather than on the regulated markets, for example treasury and local authority bills, certificates of deposit, commercial papers, medium-term notes and bankers' acceptances.

The Sub-Fund will neither invest directly in the Chinese market of A-Shares, the Indian market of P-Notes nor will invest directly in Russia but may indirectly be exposed to these countries / specific assets via eligible target funds.

The Sub-Fund will not invest:

directly in ABS/MBS. This ABS/MBS restriction that apply to direct investment in this asset class is waived for:

indirect investments such as target funds (i.e. no look-through);

investment in Exchange Traded Commodities (ETC) when seeking exposure to commodity markets (investments in ETC will not exceed 20% of the net assets of the Sub-Fund).

in structured products (save as otherwise stated above).

The Sub-Fund issues only accumulation shares (shares in which any income earned is added to the share price).

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

---	---	---	---	---	---	---

Lower risk Higher risk

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific risks relevant to the PRIIP not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Investment of EUR 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 522	EUR 1,074
Annual cost impact (*)	5.2%	3.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.9% before costs and 2.6% after costs.
