What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of ZEST ASSET MANAGEMENT SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Fund may at any time be dissolved by a resolution of the general meeting of shareholders subject to the quorum and majority requirements applicable for amendments to the Articles. And, in the event that for any reason the value of the net assets in the Sub-Fund or Class has decreased to an amount below EUR 10 million or the equivalent in any other Reference Currency, respectively such amount determined by the board of directors to be the minimum level for such Class to be operated in an economically efficient manner, or if a change in the economic or political situation relating to the Sub-Fund or Class concerned would have material adverse consequences on the investments of the Sub-Fund or Class or in order to proceed to an economic rationalization, the board of directors may decide to compulsorily redeem all the Shares issued in the Sub-Fund or Class at the Net Asset Value per Share (taking into account actual realization prices of investments and realization expenses) calculated on the Valuation Day at which such decision shall take effect.

OBJECTIVES

The Sub-Fund aims to seek a consistent, absolute return while placing emphasis on the preservation of capital in the medium term.

The Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Sub-Fund's portfolio.

The Sub-Fund's long-term objective is capital growth.

The investment strategy is based on the identification of equity stocks, which show the best investment opportunities.

The Sub-Fund may allocate up to:

- 100% - with a minimum of 51% - of its net assets to listed equities – it is understood that these limits apply to direct investments and to UCITS established as Exchange Traded Funds and investing principally in equities; and
- 30% of its net assets to bonds, convertible bonds and other fixed income securities – it is understood that this limit applies to direct investments and to UCITS established as Exchange Traded Funds and investing principally in bonds and other fixed income securities.

The Sub-Fund may invest in target funds having as underlying investments equities and/or fixed income securities.

Exposure to emerging and frontier markets will be limited to 49% of the Sub-Fund's net assets. The Sub-Fund will not use total return swap.

The allocation of the portfolio between the different various assets classes, sectors and/or geographical exposures may vary according to the Investment Manager's expectations. The allocation will be done either directly or indirectly through other UCITS, including those established as Exchange Traded Funds (including "short" or "inverse" UCITS Exchange Traded Funds if the Investment Manager anticipates a declining momentum and where results will fall short of its expectations).

With respect to the above restrictions, it is emphasized that financial derivative instruments on equities or bonds are not considered for the calculation of these restrictions.

Besides, the Sub-Fund may use financial derivative instruments for investment and hedging purposes under the conditions set out under section A and within the limits laid down by law, regulation and administrative practice.

The Sub-Fund will not invest in contingent convertible bonds, directly and indirectly in Asset Backed Securities and Mortgage Backed Securities.

The Sub-Fund may also hold ancillary liquid assets (i.e. bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes. The aforementioned limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the Shareholders.

The Sub-Fund may also hold on ancillary basis money markets instruments dealt in on the money market rather than on the regulated markets, for example treasury and local authority bills, certificates of deposit, commercial papers, medium-term notes and bankers' acceptances.

The Sub-Fund issues only accumulation shares (shares in which any income earned is added to the share price).

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

OTHER INFORMATION

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if your cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

What happens if FundPartner Solutions (Europe) S.A. is unable to pay out?

FundPartner Solutions (Europe) S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from FundPartner Solutions (Europe) S.A..

The Sub-Fund's assets are held with Pictet & Cie (Europe) S.A. and are segregated from the assets of other Sub-Funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other Sub-Funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific risks relevant to the PRIIP not included in the summary risk indicator.

This product does not include any protection from future market performance, so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Investment of EUR 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 640	EUR 1,465
Annual cost impact (*)	6.4%	4.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.7% before costs and 2.2% after costs.
