What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of ZEST ASSET MANAGEMENT SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However, the Fund may at any time be dissolved by a resolution of the general meeting of shareholders subject to the quorum and majority requirements applicable for amendments to the Articles. And, in the event that for any reason the value of the net assets in the Sub-Fund or Class has decreased to an amount below EUR 10 million or the equivalent in any other Reference Currency, respectively such amount determined by the board of directors to be the minimum level for such Class to be operated in an economically efficient manner, or if a change in the economic or political situation relating to the Sub-Fund or Class concerned would have material adverse consequences on the investments of the Sub-Fund or Class or in order to proceed to an economic rationalization, the board of directors may decide to compulsorily redeem all the Shares issued in the Sub-Fund or Class at the Net Asset Value per Share (taking into account actual realization prices of investments and realization expenses) calculated on the Valuation Day at which such decision shall take effect.

OBJECTIVES

In order to capitalise on attractive opportunities, while minimising risk, the Investment Manager shall allocate the Sub-Fund's investments across a diversified universe of corporate bonds, convertible bonds, contingent convertible bonds (for a maximum of 20% of the Sub-Fund's net assets with respect to the latter) and sovereign bonds. The Sub-Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Sub-Fund's portfolio.

The Sub-Fund shall invest primarily in fixed and/or floating bonds in both the corporate and sovereign segment, without any focus on any credit rating or duration.

Nevertheless, if the issuer/the issue is not rated by a recognized agency, the board of directors may, in its entire discretion, appreciate whether one instrument possesses the equivalent of at least High Yield rating criteria. This rating criteria assessment will be monitored by the Investment Manager on an ongoing basis (at least once a month) as from the date of investment until the sale of the concerned debt instruments. Investments in non-rated fixed income instruments will be limited to 10% of the net assets.

Moreover, the Sub-Fund will hold a diversified portfolio of bonds over a broad base of issuers, industries and geographies to mitigate credit risks. The Sub-Fund is not expected to have any bias towards any specific industrial, geographic or other market sector.

For temporary or defensive purposes, the Sub-Fund may invest in short-term fixed income instruments (with a maturity lower than twelve months), and cash and cash equivalents. The Sub-Fund may also at any time hold such securities for cash management purposes, pending investment in accordance with its Investment Policy and to meet operating expenses and redemption requests.

The Sub-Fund may invest a maximum of 10% of its assets in units or shares of other UCITS and/or UCIs in order to be eligible as a coordinated UCITS.

The Sub-Fund may, on an ancillary basis, hold cash, cash equivalents and deposits.

The Sub-Fund will neither invest directly in the Chinese market of A-Shares, the Indian market of P-Notes nor will invest directly in Russia but may be exposed to these countries/ specific assets via eligible target funds.

The Sub-Fund will not invest:

directly in ABS/MBS. It shall however be mentioned that this ABS/MBS restriction that apply to direct investment in this asset class is waived for:

- indirect investments such as target funds (i.e. no look-through);

- in structured products (save as otherwise stated above);
